

# WATER METER REPLACEMENT

The City of Fremont is currently conducting a city-wide water meter change out program. As the majority of meters are located inside the residence, the City, in conjunction with ABM and Pedal Valves, Inc. have designed this flyer to help customers feel safer about the process. Please verify the Technicians ID badge against the group photo before allowing access. For any questions, concerns or further verification, please call any of the listed numbers.

## MEET OUR TEAM
